Art Unit: 1733

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-4, drawn to a polyolefin article, classified in class 428, subclass 500 or
     523.
  - II. Claims 5-8 and 11-12, drawn to a bonding process, classified in class 156, subclass 308.6.
  - III. Claims 9-10, drawn to another bonding process, classified in class 156, subclass 309.6.
- 2. The inventions are distinct, each from the other because: the inventions of Groups I-III are held/seen to be mutually independent and distinct, none of these respectively inventions requiring the particular of the others, as follows: (a) the Group I invention (product) defines a single layer article, which would clearly not be formed/made by the lamination processes of Groups II and III, which results in the formation of multi layer articles/laminates; and (b) the Group II (method) constitutes a SOLVENT bonding process, while the Group III invention (method) constitutes a FUSION bonding process.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as, shown by their different classification, and since the fields of search are not coextensive, restriction for examination purposes as indicated is proper.
- 4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Application/Control Number: 09/355946

Art Unit: 1733

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the 5.

inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

named inventors is no longer an inventor of at least one claim remaining in the application. Any

amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the

fee required under 37 CFR 1.17(I).

Any inquiry concerning this communication or earlier communications from the examiner 6.

should be directed to J. J. GALLAGHER whose telephone number is (703) 308-1971. The

examiner can normally be reached on M-F from approximately 8:30 A.M. to 5 P.M. The

examiner can also be reached on alternate N/A.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor,

MICHAEL BALL, can be reached on (703) 308-32058. The fax phone number for the

organization where this application or proceeding is assigned is (703) 305-3599.

Any inquiry of a general nature or relating to the status of this application or proceeding

should be directed to the receptionist whose telephone number is (703) 308-0661/0662.
